Have any trade secrets - (in the shooting sports, gunsmithing, etc.) that you would like to share to the AHC? See the secretary so they can be posted in the next news letter.

Try this one: How do you sharpen a dull file? Leave it in a bucket of cold water for at least a month, then remove rust scale with a file card, wire brush (or anything else to clean off rust) and then you have a new file for nothing! (Remember the old Dodge and Chrysler cars and how the bottoms of the door rusted out easily? This made the edges very sharp from corrosion).

Keep yer powder dry.
